DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claim 1-16 and 20 drawn to Master/Slave computer setup, classified in class 709, subclass 208.
 - II. Claim 21-34, 38 and 39-51, 55, drawn to Computer network management, classified in class 709, subclass 223.
 - III. Claims 56-64 and 68 drawn to Computer to computer data processing, classified in class 709, subclass 245.
 - IV. Claims 69-82 and 86 drawn to fault handling of processor, classified in class 714, subclass 10.

Since the above-mentioned amendment appears to be a bonafide attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIMER PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions group 1, group II, group III and group IV are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in

Art Unit: 2452

other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because it distinctly relates master/slave or client/server. The second subcombination has separate utility such as computer network monitoring or management. The third subcombination has separate utility such as computer to computer data processing and the fourth subcombination has separate utility such as fault handling of processor.

The examiner has required restriction between combination and subcombination inventions. Where applicant elects a subcombination, and claims thereto are subsequently found allowable, any claim(s) depending from or otherwise requiring all the limitations of the allowable subcombination will be examined for patentability in accordance with 37 CFR 1.104. See MPEP § 821.04(a). Applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

3. A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS ACTION IS SET TO EXPIRE THIRTY DAYS FROM THE MAILING OF THIS COMMUNICATION. FAILURE TO RESPOND WITHIN THE PERIOD FOR RESPONSE WILL CAUSE THE APPLICATION TO BECOME ABANDONED (35 USC § 133). EXTENSION OF TIME MAY BE OBTAINED UNDER PROVISION OF 37 CFR 1.136(A).

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to TAUQIR HUSSAIN whose telephone number is (571)270-1247. The examiner can normally be reached on 7:30 AM to 5:00 PM.
